

# ...WHEREVER PEOPLE ARE

*28 years now, the actions of Doctors of the World - Greece classifies them as the largest medical NGO that offers help to tens of thousands of people every year inside the country. They have been recognized in the conscience of citizens as a credible and effective organization that promotes feelings of solidarity in every society.*

# WHO WE ARE

*...We, the undersigned, doctors, dentists, pharmacists and other medical personnel, actively proclaiming once again our commitment to the effort we have started since the day that we took our oath, to provide the best possible services to the people, exercising our vocation in the way dictated to us by our conscience and by the medical ethics and without considering the pain, the fatigue or any other physical or mental suffering...*

# CHALLENGES

*...We, who deeply worry seeing the everyday alienation of the values in the name of money, exploitation, thirst for power and also of the wish for subordination and withdrawal, which leads to the more and more increased estrangement of one person from the other and to his abandonment to the mercy of his fate...*

- 🩹 Increase of the socio-economic problems/crisis of populations
- 🩹 The willingness & ethical obligation to meet the needs of these populations
- 🩹 Constant search for resources
- 🩹 Different conditions & framework

# We promote

- ☒ Integration
- ☒ Dignity
- ☒ Volunteerism
- ☒ Social Solidarity
- ☒ Society of multicultural and equal environment

*...All we, keeping alive in our minds the Hippocrates's oath, are organizing ourselves in order to find a way out for our concerns and offer our assistance to populations hit by earthquakes, famine, natural disasters, massive accidents or are in war status and more generally, to anyone who, for any reason suffers, physically or mentally... For these reasons, we set up and establish the organization "DOCTORS OF THE WORLD- GREEK DELEGATION.*
